

A Short Description of Torre Abbey by Hugh Robert Watkin

Read by Garth Burton. Total running time: 01:39:00

Hugh Robert Watkin undertook excavations of the ruins of Torre Abbey between the years 1906 and 1911, before which the ruins had not been thoroughly investigated. This book sets forth his findings and conclusions, and is the last of the three editions published, being dated July 1912. Much more archaeological work has been carried out since the author's day, and further important discoveries have been made relating to the abbey's history.
